THELMO & FROIK
“A Taste of Vaudeville”

¨A Taste of Vaudeville¨

**A piano, an open space and two antagonistic characters.
An enthusiastic clown and an indifferent musician.
A cane, a hat and a spoon.
A drum without drumsticks.
A little luggage for a grand finalle.
A duel to the death...
A game with no rules, where everything is possible;
A world where the innocence and naïvete are a virtue.**

**The right place to enjoy, feel and smile... to think less and love more.
A time when you can lose all sense of time, and when the present moment is the only thing that matters...
A place where the street meets the Circus and the Theater meets the street
A play with you all and for all of you.**

Thelmo Parole, this time accompanied by Froik, a versatile musician, takes the audience into his own universe of live music, circus and comedy. A universe full of empathy and hope, where these two eccentric characters live.

A Taste of Vaudeville is a genuine search for beauty, fantasy, poetry and laughter... for the essence of the small moments, which transcends in a magical and warmth experience, designed to make you dream and play all together.

Thelmo & Froik, in a tribute to the classics, attempt to recreate their own vaudeville world. A show of Physical comedy with the thrill of the Circus, the character of the Theater and the spontaneity of the street ... Thelmo is masterfully accompanied with the charming and funny music of Froik, who puts the right intensity and timing to each situation, giving an organic and romantic taste to the performance: a taste of nostalgia, a Taste of Vaudeville....

A show with the spirit of the old times, when the comedy was focussed in the character, in the gesture, in the reaction and the situation... not that much in making funny things but in making things funny.
