

THELMO PAROLE

"The Show Must Go On!!"

THELMO PAROLE "The Show Must Go On!!" is an original idea of the spanish artist Samuel Penhastro, result of a deep study and evolution along 15 years of artistic carrer, creating, directing and performing in many different projects.

A very intense and delicate work focused upon the conection with the audience. Thelmo Parole mix disciplines like mime, balancing, juggling, or slapstic. All of them are used as a key to improvise situations, play games, share moments, evoke emotions...

From his unique and genuine, sometimes eccentric sense of humor, and a nearly missing sense of ridicule, Thelmo connects with the audience in an organical, humble, naked, and unpretentious way, transforming his sophisticated and nearly clumsy appearance into a ridiculous and nearly athletic one: taking off his glasses and changing his Suit with classic shoes and tie into a lycra and a superhero cape...

Thelmo, from his naive perspective and enthusiastic nature, creates a personal and close relationship with the audience, a subtle dialogue space, in a direct language without words.

Inspired by great Clowns from Grock to Buster Keaton, and transformed by the influences of modern times...

A Circus Show where the skills are not of primary importance...

A tribute to the silent movies, where nothing goes beyond the character.

Atsugi Festival (Japan) 2016

Dub Fest (Dubai) 2015

Edinburgh Fringe Festival (Scotland) 2017
